With the 2012 FCAT being moved to April, and March being the Spring Break month, your Board of Directors reluctantly decided on late Feb. dates. They quickly went to work to secure a property. Orlando was out of the question as February availability was scarce and rates were high. When Amelia Island Plantation was discovered, the decision was made to treat Florida TSA to a conference like no other and raise the bar. We realize that changing the venue will pose new challenges, but with this comes a great new adventure!

Don't miss it!
